SUMMARY

Software Engineer with specific experience in software development, I have worked with some organizations, ensuring a grounded approach to my profession, leveraging my expertise to optimize processes and deliver innovative solutions that meet company objectives.

PROFESSIONAL EXPERIENCE

- | | |
|---|----------------------------|
| Associate Software Engineer, Pangean Global Solutions | Oct 2023 - Mar 2024 |
| • Developed and maintained front-end features for a state government project using Angular.js, facilitating efficient monitoring and management of registered chit fund companies. | |
| • Collaborated with back-end developers to integrate front-end components with server-side logic, ensuring seamless communication and functionality across the application stack. | |
| Intern, Dasvande Technologies | Apr 2023 - Sep 2023 |
| • Collaborated with a team of developers to enhance and maintain a front-end application for a dairy farm management project using React.js, facilitating streamlined record-keeping and data management for dairy farm owners. | |
| • Implemented data entry forms, interactive dashboards, and reporting tools, to empower users in effectively managing their dairy farm operations. | |

PROJECTS

- | | |
|--|----------------------------|
| Pedal Patch -On-Demand Mechanic Booking App | Sep 2024 - Dec 2024 |
| Developed a web and mobile application that allows users to book mechanics for e-bike and bicycle repairs, similar to Uber's ride-hailing system. | |
| • Designed a responsive UI using HTML, CSS, and JavaScript to ensure a smooth experience across web and mobile. | |
| • Implemented real-time database functionality using Firebase Firestore for seamless booking and mechanic availability updates. | |
| Street Sight - Billboard CRM for Advertising Agencies | Jan 2025 - Apr 2025 |
| Developed a CRM tool streetsight.wmdd.ca to help advertising agencies efficiently manage their billboard assets, leases, and client campaigns. | |
| • Built a dynamic React frontend using Vite for fast development and performance optimization. | |
| • Designed a scalable Node.js backend with MongoDB to store and manage billboard inventory, lease details, and campaign data. | |
| • Hosted the frontend on Vercel and backend on Render for seamless deployment and scalability. | |

SKILLS

React js	Angular js	Node js
Github	Mongo Db	Firebase

EDUCATION

- | | |
|--|---------------------------|
| PDD in Web & Mobile App Development | May 2024 - Present |
| Langara College | |
